with a personal preface of

I have never thought it would be possible that MESSIAH will ever re-exist as an active band, than create and release a new album! Today, almost 24 years have passed since MESSIAH disbanded. The "Reanimation 2003" has never been announced and understood as a reunion with two live shows (CH-Abort and D-With Full Force -festival). Since then almost 15 years have passed and MESSIAH seems to be a timeless phenomenon, which is only borne by you, the loyal fans!

Now is the time
to return the fee.
A reunion with a new album!

As metal fans of various styles, we formed a band in 1984 without a planned idea of what would become of it. With sparse knowledge of the instruments, we simply beat our soul out of the body.

We created a brute style, which caused at that time incomprehension and horror at least in our personal environment, later also in the commercial media and initially requested record companies. With the distribution of the first demos in the tape trader scene, the first concerts and the further increasing contributions in international fanzines MESSIAH got a sworn fan base in the underground at that time.

This led to the creation of the first two albums on our own and a close friend of the band founded a label specifically for this purpose. Concerts in Switzerland and abroad followed and the fan community grew rapidly. However, the individualism of the band members became more and more a problem that led to the band's sudden death.

In 1989, R.B. Brögi started as the only remaining original member MESSIAH with new musicians again, initially with some changes of the line-up.

Again, the first production of the new material was self-produced and distributed as a demo tape. This was followed by first live shows and a record deal under which three albums and two EPs were realized as well as various performances and three tours in Europe.

Due to a lineup change before the last album and accompanying personal differences, MESSIAH dissolved again in 1994.

However, the fidelity of the ever-growing number of fans around the world let MESSIAH never forget.

The first two albums have been reissuing. Only for the fans, MESSIAH played in 2003 two exclusive concerts with the line-up of the second epoch under the title "Reanimation 2003" without ever promising a reunion. A DVD and the reissue of the last three albums followed this.

After another 14 years since the reanimation in 2003, we met in a friendly way in the late summer of 2017 for a "Barbecue" and discussed two live concerts as Secret Shows in Switzerland. The initially scheduled 20-minutes concert was replaced by a 50-minutes live show. These two test shows in Dec. 2017 were great fun and made us think seriously about a reunion.

MESSIAH is timeless and has never been forgotten
by you - the most loyal fans - despite our long abstinence!
Now is the time to give you back what you deserve
- and only for you -

Live-shows and a new album!
